

Biography: Dex D. Dean, P.E.

Industrial Permits Team
Water Quality Division
Texas Commission on Environmental Quality

Current Position

Dex Dean is an engineer for the Wastewater Permitting Section, Industrial Permits Team. In this role, he reviews industrial wastewater permit applications, proposed groundwater remediation discharges, pond liner certifications, and thermal study plans. He supports the team with technical assistance and works with the U.S. Environmental Protection Agency to resolve permit objections.

Education and Prior Experience

He holds a Bachelor of Science and Master of Science degrees from Texas A&M University and is a licensed professional engineer in Texas. He has been with the TCEQ's Water Quality Division since 2010 and has experience with municipal and industrial wastewater permitting, as well as municipal plans and specifications review. Before working with the TCEQ, Dex was involved with water resources research projects at Texas A&M University and with the Texas Agrilife Extension Service.
